

Marc Agar, President & CEO of CA Communications, Presents His Views on the State of the Telecommunications Industry

Leading Providers in the U.S and Canada Listen to Mr. Agar at Technology Assurance Group's 2007 National Convention

MINNEAPOLIS, MN— March 27, 2007 — CA Communications, Inc., a leader in business communications, announced today that the company's President & CEO, Marc Agar, presented his views on the state of the telecommunications industry during Technology Assurance Group's annual convention. Technology Assurance Group (TAG), a national organization of independently owned telecommunication companies representing over \$350 million in products and services, of which CA Communications is a premier member, held their 2007 TAG National Convention in San Diego in March.

The theme for the convention was "Communicating through Convergence". Telecom professionals from both the United States and Canada listened to Mr. Agar's views on the convergence of voice and data and its impact on the way businesses communicate. Mr. Agar proactively participated in a number of roundtable discussions covering such topics as increasing customer profitability, utilizing customer relationship management systems, and understanding personality profiles to manage more effectively.

"Mr. Agar is very well respected in our industry and it was a privilege to have him address our group of distinguished professionals," said Dale Johnson, president of Technology Assurance Group. "All of our member

companies, strategic business partners, and industry analysts greatly benefited from Mr. Agar's valuable insight."

"The TAG convention gave us a fantastic opportunity to help our colleagues gain a clearer understanding of the direction of the industry as well as the topic of convergence," said Marc Agar, President & CEO of CA Communications. "The event also enables us to learn better practices from companies in other geographical locations that we can implement in our business to help our customers improve their profitability as well as give them a competitive advantage."

ABOUT CA COMMUNICATIONS, INC.

CA Communications is a business resource for all of our customers' telecommunications, computer hardware, software, service, and support needs. With over 20 years of experience in design, installation and service of voice, data, and networked communication systems, CA Communications understands business communication needs and can customize a system to exact specifications.

CA Communications provides its customers with industry leading products, which are serviced by factory certified technicians. The company is an authorized Toshiba dealer and can equip any organization with a traditional phone system or provide cutting edge technology such as IP Telephony. Through its partner network CA can also provide service and parts for other major phone

systems including; Fujitsu, Panasonic, Vodavi, Executone, Nortel, and Lucent/Avaya/AT&T.

CA Communications offers local dial tone, long distance services and data services such as VPN, ATM, and Frame Relay. Through its partner network, CA Communications can provide data services and equipment including: Microsoft NT and 2000 Server, MS Windows 95/98/XP, MS Exchange Server, Microsoft Office, Cisco, Novell Netware and Novell Groupwise.
