

CA Communications, Inc. to Speak at National Convention Showcasing U.S. and Canada's Top Telecommunications Providers

Marc Agar, President & CEO of CA Communications, Inc., to Offer His Industry Expertise During Technology Assurance Group's 2006 National Convention

MINNEAPOLIS, MN — December 14, 2005 — CA Communications, Inc., an industry leader in telecommunications, announced today that the company will speak at a national convention showcasing both U.S. and Canada's top telecommunications providers. Technology Assurance Group (TAG), an association of independently owned telecommunication companies, of which CA Communications is a premiere member, invited Marc Agar, the company's President & CEO, to share his industry expertise during a series of roundtable discussions. These discussions will cover a variety of hot topics impacting telecommunications and the global business environment. TAG's 2006 National Convention will be held March 8th – 10th in San Diego, California.

Hundreds of telecom professionals representing voice and data providers, major industry manufacturers, and trade journals will listen to Mr. Agar offer his valuable insight on issues facing communications technology, business processes, customer satisfaction, and corporate training. The roundtable discussions are the most popular activity of the convention because it's an opportunity for open exchange of ideas and information.

"Mr. Agar's vast knowledge, experiences, and accomplishments in our field is quite impressive," stated Dale Johnson, CEO of TAG. "It will be an honor to have someone of his

caliber address our Member companies at our largest event of the year. Everyone in attendance will be treated to a valuable learning experience."

"It is a great privilege to share our challenges and experiences with TAG members across North America," said Marc Agar. "Participating at TAG's annual event enables us to interact and learn better business practices from leading companies in our industry. We implement new ideas and approaches that not only improve our company, but provide cost-effective products and services to our customers. The TAG Convention presents us with an awesome opportunity to identify new technology solutions that give the companies we serve a competitive advantage, improved profitability, and a higher level of productivity."

ABOUT CA COMMUNICATIONS, INC.

CA Communications is a business resource for all of our customers' telecommunications, computer hardware, software, service, and support needs. With over 20 years of experience in design, installation and service of voice, data, and networked communication systems, CA Communications understands business communication needs and can customize a system to exact specifications.

CA Communications provides its customers with industry leading products, which are serviced by factory certified technicians. The company is an authorized Toshiba dealer and can equip any organization with a traditional phone system or provide cutting edge technology such as IP Telephony. Through its partner

network CA can also provide service and parts for other major phone systems including; Fujitsu, Panasonic, Vodavi, Executone, Nortel, and Lucent/Avaya/AT&T.

CA Communications offers local dial tone, long distance services and data services such as VPN, ATM, and Frame Relay. Through its partner network, CA Communications can provide data services and equipment including: Microsoft NT and 2000 Server, MS Windows 95/98/XP, MS Exchange Server, Microsoft Office, Cisco, Novell Netware and Novell Groupwise.
